

Dear License to Parent Station Partners:

I am writing today to let you know of some very important news regarding the distribution of our programs. Effective Friday, June 12, 2020, License to Parent will ONLY be distributed via Amb-OS. If you have been downloading the program from Westar's ftp site, you need to take action in one of the following ways:

Authorize your AmbOS receiver to receive these programs, by going to the Amb-OS permissions portal: <http://amb-os.com/permissions>

The program name on the portal for the **30 min weekly program** of *License to Parent* is: SHAX License to Parent Weekly + Promo

The program name on the portal for the **daily 1-minute feature**, *License to Parent* is: SHAX License to Parent Daily

If you are not currently able to receive programming through Amb-OS, you may be eligible to receive a free receiver. For details, contact Charley Mefferd at charley@amb-os.com or 949-681-7640.

Should you not current have a receiver, Charley can also assist you with the credentials needed to access the Amb-OS ftp site by contacting ftp@amb-os.com.

We will be ending the distribution of these programs through Westar's ftp effective June 12, so you need to act now in order to continue to receive these programs.

Thank you for your partnership with License to Parent!
